

9-10-64

GLC talked to Walter Besterman and Besterman said that Feighan did not actually speak on the floor today but asked Rep. Hale Boggs to put in the appendix of the Record five items. Mr. Besterman was not aware of which items were involved but felt if this matter were brought to the public's attention in this way it would be regrettable. GLC asked Besterman if he knew whether the Congressman was still working on the basis that US Government funds were involved. He said Feighan knows that US Government funds are not involved but Besterman believes that Feighan may still try to give the impression that they are.
